Perfection with Personality

The **P** for **Premium** has inspired us to search for **Perfection** in the visual communication, textile and decoration markets. **Perseverance** brings us closer to it at every turn and this **Passion** resulted in **Sign Graphics** and **Decor** Products that stand out.

Decor

*Personalized
Landscape*

Each landscape is unique. Our self-adhesives can Personalize any environment with its Precious details. A combination of papers and fabrics for design and interior decoration that allow the intensity of time and the spaces to be measured in m².

In **Decal, Perfection** has a **Personality**.
Meet and feel it in this **Media Guide**.

Digidelta Internacional Import Export, S.A. presents solutions for the digital world since 1986, the year in which it was founded by the current CEO Rui Leitão. We count over 12.000 days focused on the mission of manufacturing and supplying high value integrated systems and will continue to add decades, customers, partners and employees.

The past solidifies our experience in the **visual communication, labelling and packaging, textile industry and industrial printing markets**. The present brings the products developed in the head office and manufacturing plant with more than 10.000m², in Torres Novas.

The future?

It will, certainly, be sustainable and promising. We have already reached half a hundred countries and want to go further.
